REQUESTOR TITLE:

DEPARTMENT/DIVISION:

TELEPHONE NUMBER:

EMAIL ADDRESS:

MENTOR NAME (IF APPLICABLE)

NAME OF TOPIC FOR CLINIC DISCUSSION:

DESCRIPTION OF PROJECT (SHORT OVERVIEW & QUESTION):

DATASET SUBMISSION TO EMAIL: YES NO

Request Process

To participate, researchers will need to complete a Quantitative Science Clinic request form and submit via email to the BBSR clinic general email account (bbsr-clinic@miami.edu) at least three days in advance. Clinics will be confirmed by an email response from the BBSR administration outlining scheduled date and time, requesting researcher, location, and topic for discussion. **(Note: Mentors/supervisors are strongly encouraged to attend the clinic with students and postdoctoral fellows.)**

Researchers who have simple datasets to be analyzed have the option of emailing their de-identified data prior to clinic discussion, to the BBSR clinic general email account (bbsr-clinic@miami.edu). Preferred formats are R, SPSS, SAS, and .csv files. **Identifiable data MUST be removed from the files prior to submitting to our core.**

BBSR ADMINISTRATION ONLY
